

GeloMyrtol®

www.gelomyrtol.ca

*GeloMyrtol is the mucolytic
that is clinically proven to free
the respiratory tract.*

.....
Bronchitis | Sinusitis

Approved by Health Canada

Indication

Mucolytic that reduces the risk of acute exacerbation of chronic bronchitis when used in conjunction with professionally supervised conventional treatment.

Mode of action

- Works on the upper and lower airways.
- Reduces mucus viscosity.
- Liquefies mucus to facilitate its evacuation.

Presentation

Enteric-coated capsules.

Dosage

Adulte: 1 capsule 3 times a day. Do not use for more than 6 months.

Directions for use Capsules should be taken without chewing 30 minutes before meals with a large glass of cold liquid. Read the package insert before use. Do not use this product if you are allergic to any of its components. Keep out of the reach of children.

Precautions

Consult a healthcare professional before using this product if you are pregnant or breastfeeding.

Contraindications

GeloMyrtol® 300 mg must not be used if there is a hypersensitivity to any of the ingredients of the drug product. In the event of gastrointestinal disturbances such as stomach, pain, nausea, vomiting or diarrhoea, discontinue use.

Action Profile

Mucolytic Effect: Reduces mucus viscosity and facilitates its evacuation.

Secretolytic Effect: Stimulates secretion of liquified mucus.

Secretomotoric Effect: Increases the ciliary beating action to improve mucus evacuation.

Ingredients

Active Ingredients: Each capsule contains Myrtol standardized [distillate of a mixture of essential oils of eucalyptus, sweet orange, myrtle and lemon (66 :32 :1 :1)].

Non-medicinal Ingredients: Rapeseed oil (refined), gelatin, glycerin, sorbitol, hydrochloric acid, hypromellose acetate succinate, citric acid, triethyl ester, sodium lauryl sulphate, talc, dextrin, ammonium glycyrrhizinate.
